

Greater Pine Island Pole Painting Project 2024.

Date.....

Artist name.....

Telephone Email.....

Short Bio.....

.....

Here’s how it works:

- 1) The Chamber of Commerce with LCEC approval will select easy access electric poles to be painted. You are welcome to request a location if you wish.
- 2) We ask that island Artists submit their drawings, using the guidelines below for approval.
 - a) Paint only can be used, nothing can be attached to the poles.
 - b) Paintings should be designed to be **6 foot tall**. Painting should start 2 foot from the base.
 - c) Artwork will not be of a commercial nature and will not include any words. Artwork should be indicative of the Pine Island Community.
- 3) Drawings are submitted to the Chamber of Commerce with this signed form either in person at the Welcome Center, 10530 Stringfellow Rd, Bokeelia or by email to:
Info@PineIslandChamber.org
- 4) The Chamber of Commerce will then send them to LCEC, for approval.
- 5) Once approved the artist can paint their drawing onto the pole.
- 6) As the poles are being painted, we ask that you send us photos of the artist at work, with a bio so you can get recognition for your efforts.

On completion we will take photos of the poles to use in our advertising campaign highlighting the uniqueness of our island.

I understand that the Greater Pine Island Chamber of Commerce does not have final approval for the painting of the electric poles which are owned by LCEC and neither GPICC or LCEC can be held liable for the painting once completed.

I understand that LCEC or contractors may have to work on a pole from time to time and it could result in removal or possible damage of a painted pole.

I understand that the painting of the pole and my safety while painting is my sole responsibility, and I waive any claim or potential claim for any injury or loss associated with this project against LCEC and/or the Greater Pine Island Chamber of Commerce.
